

# Mathematical and Numerical Methods in Image Processing

## Speakers:

Hans-Christian Hege (ZIB)

Michael Hintermüller (HU Berlin)

Bangti Jin (UCL)

Gitta Kutyniok (TU Berlin)

Jan Modersitzki (University of Lübeck)

Mila Nikolova (ENS Cachan)

Thomas Pock (TU Graz)

Wotao Yin (UCLA)

# BMS Summer School

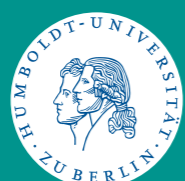

## July 25 - August 5, 2016

The summer school consists of two parts. The first part is devoted to analytical and approximation-theoretic aspects of image processing, and the second part focuses on algorithmic and computational aspects as well as Bayesian methods and their practical realization. For further information and online registration, visit our webpage:
